

Become an MVNO on the T-Mobile Network

Plum helps Mobile Virtual Network Operators (MVNOs) create their own wireless business on America's Largest 5G Network. As a part of T-Mobile Wholesale, Plum offers MVNOs a valuable partnership that provides industry insights, network technology capabilities and guidance from industry leaders. Partners tap into Plum's decades of wireless experience and connections to help launch MVNOs.

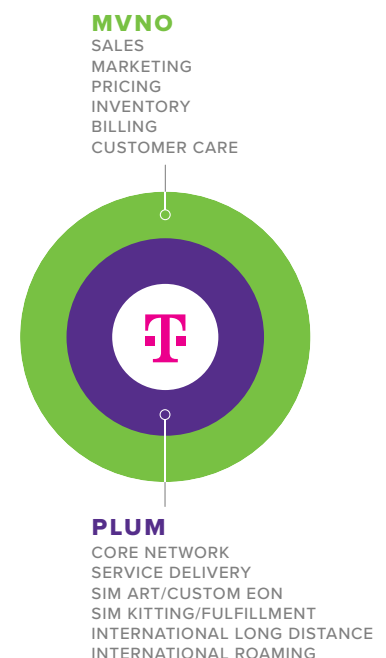

Wholesale Program Tailored To Help You Succeed

The Aggregator program offers licensed MVNOs flexible wholesale pricing and add-on services. Plum offers many features, including data throttling, network usage alerts, international roaming, international long-distance, caller ID and visual voicemail. Plans can include pooled, unit-based, or pre-configured wholesale pricing. The program supports direct and MVNE integrations based on your needs, capabilities or configuration.

Leverage Plum's Operational Experience

Our dedicated experts ensure partners receive end-to-end support and the guidance to succeed:

- Product and feature enhancements including international long-distance, tailored to your business needs.
- End-user plans have a variety of configuration options and are built at the network level with real-time monitoring and management.
- Additional SIM services available: custom EON, SIM kit printing, SIM kitting and 3PL.
