Data-Only Plans For Your Offering on the T-Mobile Network

Plum's Data-Only Plans provide reliable and secure cellular data connectivity in mobile and fixed applications for your client's services and devices. Plans are designed to support the infrastructure connecting businesses and communities on America's Largest 5G Network.

Mobile Data and Fixed Wireless Connectivity

Need a reliable wireless data provider for your business? Plum's Data-Only Plans provide connectivity solutions to fit a range of low and high bandwidth needs. Plans deliver reliable connectivity to power many mobile and fixed wireless data applications. No matter your requirements, Plum has flexible wireless options for your unique needs.

We offer options for pooled and pre-provisioned plans. Our pooled plans allow you to optimize the cost structure across multiple lines and devices. Plum's pre-provisioned plans enable you to manage your lines without having to worry about overages for each device.

Data-Only Plan Offerings

- Mobile Data Services: Perfect for sensors, devices, assets tracking, broadband and more.
- Fixed Wireless Services: Ideal for primary internet, failover, smart metering and SD-WAN needs.

	Mobile Data Services	Fixed Wireless Services
High Bandwidth	• Mobile broadband devices • Data-only devices • Mobile hotspots	• Failover routers • Fixed wireless for business or home • Video surveillance • SD-WAN
Low Bandwidth	• Sensors • Asset tracking • Telematics	• Digital signage • Utility meters • Parking meters • Smart cities

The Plum Difference

Network Partnership
T-Mobile Network provides access to the network infrastructure and the latest features..

Scalability
The program grows with your needs, with the flexibility to provide more data and program options as your business evolves.
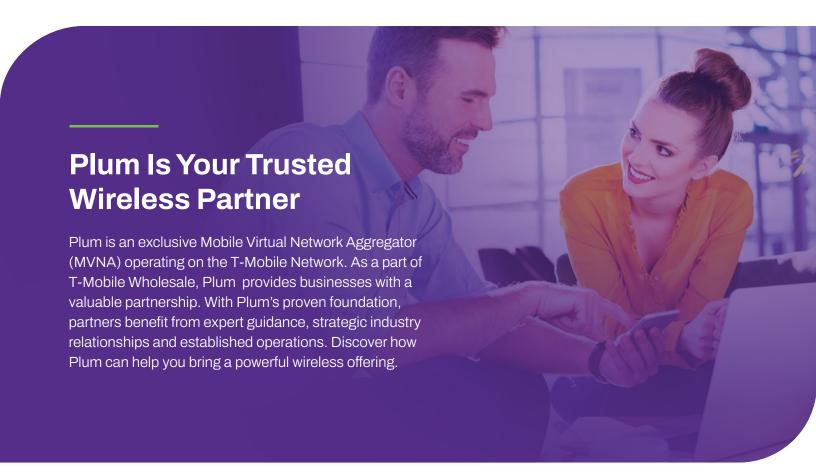

Flexible Plans
Benefit from fully customized data-only plans including capped or pooled plans.

Dedicated Support
Dedicated sales, account management and technical support ensure the success of your business from day one.
